**General Facility Charge For New Water Services** (per ERU, Equivalent Residential Unit):

ERU description and maximum allowable amount as determined in 2014 Rate And General Facility Charge Study.

1)	Downtown Area - 50% of maximum allowable (\$9,910)	\$4,955
2)	Uplake Area – 50% of maximum allowable (\$15,001)	\$7,501

The Downtown and Uplake Areas are as defined in the 2014 Rate And General Facility Charge Study Figure 1-1, but are generally described as; Downtown Area is defined as the main town site on north side of Lake Chelan and areas to the east. Uplake area is defined as any area on the north side of Lake Chelan which is served by the Darnell Water Booster Station, or any area south of Lake Chelan/Chelan River.

ERU determination will be the same as indicated in Section 2 of this document “Sewer, Equivalent Residential Units per Classification:”

Water meter installation includes the cost of the tap, meter, box, miscellaneous appurtenances and installation.

**Reservoir Impact Fee:**

An additional Reservoir Impact Fee in the amount of \$1,750 will be charged to all new services within the area formerly known as the Chelan River Isenhart Domestic Water System(CRIDWS) prior to transfer to the City of Chelan per CRIDWS Resolution #221 and CRIDWS interlocal agreement with City.

**Change Of Use:**

When the ERU classification associated with an existing water service increases as a result of a change of use other than described in the following paragraph, the account customer is not subject to additional GFC connection charges, but will be subject to additional Water Monthly Service Fees equal to the ERU calculation of the new use. If a larger meter is required for the new use, the account customer will pay an amount equal to the actual costs of the installation of the new meter.

When the ERU classification associated with an existing water service increases as a result of a conversion to industrial, manufacturing or multi-family use, the account customer is subject to additional GFC connection charges and additional Water Monthly Service Fees equal to the ERU calculation of the new use. If a larger meter is required for the new use, the cost of installation of the new meter will be covered by the additional GFC charges.

ERU increases are to be determined consistent with the “Sewer, Equivalent Residential Units per Classification:” times the appropriate General Facility Charge For New Water Services as indicated above.

**Lake View Maintenance Association:**

The Lakeview Maintenance Association is a wholesale purchaser of water and is charged one and one-quarter times the established fees and charges for water per agreement with the City.

**Meter Tests:**

The City will, at its own expense, inspect and test its meters as required to insure a high standard of accuracy. Additional tests at the request of a customer will be made and if the meter is found to register within two percent of accuracy a fee of \$30 shall be charged for all such tests made.

**Multiple Uses:**

Where more than one family, firm, business, association or corporation uses water from the same connection, the water service shall be the same as if each family, firm, business, association or corporation were separately connected thereto. This would also include any condominiums, apartments or multifamily dwellings. When multiple businesses reside within one office space or work area and have only one employee, it will be regarded as one business.

**Water Rights – Payments In Lieu Of :**

Charges relating to water rights will be per Ordinance #2006-1322

**2. SEWER:**

Type of Service	2014	2015	2016	2017	2018	2019

**General Facility Charge For New Sewer Services** (per ERU, Equivalent Residential Unit): ERU description and maximum allowable amount as determined in 2014 Rate And General Facility Charge Study.

1)	Downtown Area - 50% of maximum allowable (\$5,433)	\$2,717
2)	Uplake Area – 50% of maximum allowable (\$8,560)	\$4,280

The Downtown and Uplake Areas are as defined in the 2014 Rate And General Facility Charge Study Figure 1-1, but are generally described as; Downtown Area is defined as the main town site on north side of Lake Chelan and areas to the east. Uplake area is defined as any area on the north side of Lake Chelan which is served by the Darnell Water Booster Station, or any area south of Lake Chelan/Chelan River.

ERU determination will be as per above schedule “Sewer, Equivalent Residential Units per Classification:”

GFC charges do not include the cost of installation of sewer service lines. The installation, maintenance and repair of sewer service lines are solely the responsibility of the customer.

**Change Of Use:**

When the ERU classification associated with an existing sewer service increases as a result of a change of use other than described in the following paragraph, the account customer is not subject to additional GFC connection charges, but will be subject to additional Sewer Monthly Service Fees equal to the ERU calculation of the new use.

When the ERU classification associated with an existing sewer service increases as a result of a conversion to industrial, manufacturing or multi-family use, the account customer is subject to additional GFC connection charges and additional Sewer Monthly Service Fees equal to the ERU calculation of the new use.

ERU increases are to be determined consistent with the “Sewer, Equivalent Residential Units per Classification:” times the appropriate General Facility Charge For New Water Services as indicated above.

**Building Department Permit Fees**

Fees shall be assessed in accordance with this fee schedule. All fees are exclusive of any state building code fees, which shall be additional, as applicable.

Permit Fees. The fee for each permit shall be set forth in the fee schedule. The determination of value or valuation under any of the provisions of this code shall be made by the building official. The value to be used in computing the building permit and building plan review fees shall be the total value of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems and any other permanent equipment.

Plan Review Fees. When submittal documents are required by Section 106 of the International Building Code and International Residential Code, a plan review fee shall be paid at the time of the submitting the submittal documents for plan review. Said plan review fee shall be 65 percent of the building permit fee.

The plan review fees specified are separate from the permit fees specified and are in addition to the permit fees.

When submittal documents are incomplete or changed so as to require additional plan review or when the project involves deferred submittal items as defined in Section 106.3.4.2 of the International Building Code, an additional plan review fee shall be charged at the rate shown in the Building Permit Fee Table.

Reinstatement of expired building permit – Permits which have been expired more than 6 months and less than 36 months. (Note 7).

### PLAN CHECK FEES FOR IDENTICAL PLANS

A. An owner, builder or developer seeking to build more than one structure of an identical design may obtain a discount on the plan check fee required by this chapter and the International Building Code for subsequent identical design submissions within a period of twelve months of the original submission. The discounted fee shall be thirty percent (30%) of the full fee applicable at the time of payment, or the actual cost to the city for plan check review if conducted by an outside official, whichever is greater. The plans must be identical to those submitted by the same applicant within the previous twelve months for which a full fee was paid.

B. At the time of submission of the original plans, the applicant may submit up to four minor construction alternatives for a common design, and pay the applicable additional fee based on the value of the alternative as determined by the building official. The approved alternative plans shall be considered part of the original plans for purposes of determining what constitutes an identical plan.

C. The decision of the building official as to what constitutes a minor construction alternative and identical plan, for purposes of the discount provided by this section, shall be final and binding.

\*\*The above plan check fees for identical plans shall not apply in the event of an applicable code change

#### REFUND POLICY

1. 75% refund of fees will be provided if the Planning Director or his/her designee determines that, although the application has been accepted, no processing by the City has occurred.
2. 50% refund of fees will be provided, if the Planning Director or his/her designee determines that the request is made after processing by the City has occurred.
3. No refund of fees will be provided after an administrative decision or interpretation is rendered or after the mailing of notice unless the application is withdrawn at a City Department's request.
4. Full refund of fees, minus the pre-conference fee, may be authorized if the City has inappropriately told an applicant that a permit/action is required and later is determined by the City that the permit/application was not necessary/required.

#### GENERAL ADMINISTRATION OF FEE SCHEDULE

All of the required fees will be paid at time of application or when applicant requests information or service for which a fee is charged above and is rendered without an application being filed provided that for hourly fees, the applicant will be billed and the fee paid before the decision is made and the findings signed.

- A. Each action for which there is a listed fee above will constitute a separate action, and the fee will be computed as determined above. Each variance required is a separate action.
- B. Measurement of acreage will be rounded to the nearest full acre except for areas less than one acre, which will be computed as one acre.
- C. Hourly wages will be rounded to the nearest 1/4 hour except for hours less than 1/4 hour, which will be computed as 1/4 hour.
- D. Value of projects and/or construction shall be determined by building permit value if issued within the last year. If no building permit was required or the building permit was issued more than one year ago, the value shall be determined per County Assessor records, awarded construction bid, estimated construction cost or other comparable means.
- E. Fees shall be doubled for work begun without a valid permit.
